

# GIS/CAD Services

## Accurate and up-to-date mapping is crucial to every element of your business.

Everything from network maintenance, emergency response, budget forecasting, and company valuation require these records to keep your company on course.

Relying on single point dependencies and perishable paper records create vulnerabilities for your customer, community and company. CHR's GIS/CAD Services take the guess work out of geospatial management and ensure your business is on the right path.

### MANAGED GIS/CAD SERVICES

- Data extraction and normalization from paper to CAD
- Landbase and coordinate creation (lat/long, roads, hydrology, landmarks, row)
- Data exports to OneCall-Digtess & Google Earth
- Data imports (FEMA, soils, DFW, FCC)
- Graphical object assignment (Routes, peds, CSA#)
- Aerial imagery and GPS
- Ongoing system updates and support of geographical data
- Report, query and analysis capabilities
- Data files hosted on CHR servers
- Facilities management system integration

**Ensure your mapping is up to date and accurate. Call today!**
